ASVAB-Mathematics-Knowledge

ASVAB Section 6 : Mathematics Knowledge

What's the mode of the following series of numbers?
4, 4, 8, 8, 8, 10, 10, 12, 12
A. 9
B. 8
C. 11
D. 10

Answer: B

Explanation:
The mode of a series of numbers is the number that appears in the series the most frequently. In this case, it's 8.

Question: 224

If a = 4, then a3 ÷ a = _____.
A. 4
B. 12
C. 64
D. 16

Answer: D

Explanation:
(4 × 4 × 4) ÷ 4 = 64 ÷ 4 = 16

Question: 225

Which of the following is a prime number?
A. 27
B. 11
C. 8
D. 4

Answer: B

Explanation:
A prime number is a number that can be divided evenly by itself or by one, but not by any other number. Choices 27, 8 and 4 can all be divided evenly by other numbers.

Question: 226

(x + 4)(x + 2) =
_____.
A. x2 + 6x + 6
B. x2 + 8x + 8
C. x2 + 8x + 6
D. x2 + 6x + 8

Answer: D

Explanation:
Multiply the first variable in the first set of parentheses with the first variable in the second set of parentheses ($x \times x = x2$).
Next, multiply the first variable in the first set of parentheses with the second number in the second set of parentheses ($x \times 2 = 2x$). So far, the results are $x2 + 2x$.
Now, multiply the second number in the first set of parentheses to the first variable in the second set of parentheses ($4 \times x = 4x$).
Next, multiply the second variable in the first set of parentheses to the second number in the second set of parentheses ($4 \times 2 = 8$). The solution is $x2 + 2x + 4x + 8$. Combining the like terms results in $x2 + 6x + 8$.

Question: 227

$1.5 \times 103 = $ _____.

A. 45
B. 150
C. 1,500
D. 15

Answer: C

Explanation:
$1.5 \times 103 = 1.5 \times (10 \times 10 \times 10) = 1.5 \times 1,000 = 1,500$.

Question: 228

(12 yards + 14 feet) ÷ 5 =
_____.

A. 12 feet
B. 51/5 feet
C. 10 feet
D. 21/2 yards

Answer: C

Explanation:
Convert 12 yards and 14 feet to feet:
(12 yards $\times$ 3 feet per yard) + 14 feet = 36 feet + 14 feet = 50 feet. Divide by 5 as instructed: 50 feet $\div$ 5 = 10 feet.

Question: 229

$x3 \times x4 = $ _____.

A. x12
B. 2×7
C. 2×12
D. x7

Answer: D

Explanation:
If two powers have the same base, they can be multiplied by keeping the base and adding the powers together.

Question: 230

The fourth root of 16 is _____.

A. 4
B. 1
C. 3
D. 2

Answer: D

Explanation:
$2^4 = 16$; the fourth root of 16 is 2.
Question: 231

What's the equation of a line that passes through points $(0, -1)$ and $(2, 3)$?
A. y = 2x – 1
B. y = 2x + 1
C. x = 2y – 1
D. x = 2y + 1

Answer: A

Explanation:
The slope of the line is equal to the change in y values divided by the change in x values. The change in y values is 4(3 – -1). The change in x values is 2 (2 – 0). 4/2 = 2.
To find the intercept, substitute 0 for x in the equation $y = 2x + b – 1 = 2(0) + b$. Therefore, b = -1, so the equation is $y = 2x – 1$.
Question: 232

The cube of 5 is _____.
A. 125
B. 25
C. 15
D. 50

Answer: A

Explanation:
The cube of $5 = 5 \times 5 \times 5 = 125$.
Question: 233

$2.5 \times 3^3 =$ _____.
A. 22.5
B. 75.0
C. 67.5
D. 675.0

Answer: C

Explanation:
$2.5 \times 3^3 = 2.5 (3 \times 3 \times 3) = 2.5 \times 27 = 67.50$.
Question: 234

If x = 8, what's the value of y in the equation: $y = (x^2 \div 4) – 2$?

A. 1
4
B. 1
6
C. 1
8
D. 2
0

Explanation: $y = (x2 \div 4)$
$- 2\ y = (82 \div 4) - 2\ y = (64$
$\div 4) - 2\ y = 16 - 2 = 14$

SAMPLE QUESTIONS

*These questions are for demo purpose only. **Full version** is up to date and contains actual questions and answers.*

Killexams.com is an online platform that offers a wide range of services related to certification exam preparation. The platform provides actual questions, exam dumps, and practice tests to help individuals prepare for various certification exams with confidence. Here are some key features and services offered by Killexams.com:

Actual Exam Questions: Killexams.com provides actual exam questions that are experienced in test centers. These questions are updated regularly to ensure they are up-to-date and relevant to the latest exam syllabus. By studying these actual questions, candidates can familiarize themselves with the content and format of the real exam.

Exam Dumps: Killexams.com offers exam dumps in PDF format. These dumps contain a comprehensive collection of questions and answers that cover the exam topics. By using these dumps, candidates can enhance their knowledge and improve their chances of success in the certification exam.

Practice Tests: Killexams.com provides practice tests through their desktop VCE exam simulator and online test engine. These practice tests simulate the real exam environment and help candidates assess their readiness for the actual exam. The practice tests cover a wide range of questions and enable candidates to identify their strengths and weaknesses.

Guaranteed Success: Killexams.com offers a success guarantee with their exam dumps. They claim that by using their materials, candidates will pass their exams on the first attempt or they will refund the purchase price. This guarantee provides assurance and confidence to individuals preparing for certification exams.

Updated Content: Killexams.com regularly updates its question bank and exam dumps to ensure that they are current and reflect the latest changes in the exam syllabus. This helps candidates stay up-to-date with the exam content and increases their chances of success.

Technical Support: Killexams.com provides free 24x7 technical support to assist candidates with any queries or issues they may encounter while using their services. Their certified experts are available to provide guidance and help candidates throughout their exam preparation journey.
